YOUNG MAN COMES CLOSE TO DROWNING

City Firemen Rescue Bather From Race When He Becomes Exhausted.

A Mishawaka lad of less than 20 years of age had a closer call to being drowned late yesterday afternoon in the race back of the water works station than he will ever want to experience again. But for the presence of City Firemen William Ravencroft and Joseph Scheibelhut near the scene and the prompt work of both in rescuing the drowning youth the lad would most certainly have gone to a watery grave. Because of the serious illness of his mother and the possible bad effect the information of her boy's narrow escape might have on her condition the victim's name is withheld from publication.

The young man with two companions about his own age were bathing in the river near the E. & W. railroad bridge and finally moved up toward the head gates of the race, where Ravencroft and Scheibelhut were fishing. The three bathers started to swim across the race from the north side at the head of the dam to the bathhouse at the foot of Race st., a distance of about 150 feet. One of the swimmers landed on the opposite side safely, another had no more than started and the third was in the middle of the stream when he became exhausted and began to call for help. Scheibelhut removed part of his clothing and prepared to jump into the stream to attempt rescue of the victim, but before it was necessary the latter had succeeded in getting within 30 feet of Ravencroft, who held the free end of the fishing line and threw one end of the pole to the fast sinking youth, who managed to grasp the rod and was towed into shore with difficulty. He was so badly frightened after he had been landed on dry ground that it was some time before he released his death grip of the fishing rod.

William Van Alstine of Woodville, O., is visiting with friends here.

The New Way To Remove Corns Ice-Mint Does It--No Pain

Just a Touch Stops Soreness. The Corn or Callous Soon Shrivels and Lifts Off. Try It. Your Feet Will Feel Cool and Fine.

Thanks to a new discovery made from Japanese products, your foot troubles can be quickly ended. Ice-Mint, as this new preparation is called, is said to shrivel up hard corns, soft corns or corns between the toes so that they can be lifted off easily with the fingers. It's wonderful.

Think of it: Just a little touch of that delightful, cooling, soothing Ice-Mint, and real foot joy is yours. No matter how old or tough your feet are, they will soon shrivel up and you can pick them out. No pain, not a bit of soreness either when applying Ice-Mint or afterwards, and it doesn't even irritate the skin.

NEWLY-WEDS GIVEN BELLING LAST NIGHT

A crowd of 35 women went to the home of Herman Wrasse, E. Seventh st., last night and accorded Mr. Wrasse a "belling" on the occasion of marriage to Mrs. Christian Lentz which took place Saturday evening. They were "armed" with various kinds of noise makers from cow bells to dishpans. There was no melody in the noise, however, to the son of the house, who emptied two buckets of ice cold water down the necks of two most estimable matrons who were among the merry makers and whose lingerie was reduced to pulp. The bridegroom was game, however, and took the selling party to the Page drug store where he regaled them with all the ice cream they could dispose of in the time at his command.

DEMONSTRATION WEDNESDAY EVENING

To Start Ball Rolling For Army Volunteer Week. Last Call.

The local army recruiting office was reopened Tuesday morning for this week only. Corp. Ernest Daetwiler was sent here by Capt. Ryan to take charge. This is national recruiting week to obtain 75,000 volunteers for the regular army to bring it up to war strength. Enlistments, as heretofore, are taken for only the duration of the war. To start the campaign off in Mishawaka to assist in recruiting the city's share of the 200 recruits required of St. Joseph county, a demonstration is planned to be held Wednesday evening. M. W. Mix, secretary of the county council of defense and Mayor Gaylor, also a member, have been appointed as a committee to work out plans for the demonstration which is intended to consist of a parade and exhibition drill by Co. F of South Bend and a program of speeches on the steps of the postoffice building. The Dodge company and Woollen company bands will in all probability give their services for the affair which is scheduled to start by 7 or 7:30 o'clock. The public is invited to take part in the parade and each one is requested to bring a small flag. Postmaster Herzog, who is assisting in the plans, communicated with Capt. Thomas E. Ryan at Fort Wayne Tuesday morning to extend to him an invitation to deliver a speech, but no definite reply could be obtained from the officer owing to the short notice until late today.

RED CROSS FUND REACHES \$9,785

Apportionment of \$10,000 Will be Raised Before Close of Canvass.

At noon today Mishawaka's contribution to the \$100,000,000 Red Cross fund had totaled \$9,785, leaving a balance of \$215 yet to go to make up Mishawaka's apportionment of \$10,000 toward the \$70,000 expected from St. Joseph county. This deficit and probably more will be subscribed within the next few hours it is confidently expected by the committee of workers. Much credit is due the following citizens who have given of their time unsparringly in behalf of the cause: Charles A. Ostrom, chairman of the local fund; W. W. Dodge, Rev. J. A. Burnett, Rev. G. W. Titus, Fred Freuh, and D. W. Horton.

It is a much discussed fact that the farmers of Penn township have given practically nothing toward the fund and the hope is expressed that some means can be found to get them interested to the extent of contributing toward the movement.

WOOLEN CO. EMPLOYEES MAKE A FINE RECORD

In Enlistments, Liberty Bond Subscriptions and Red Cross Memberships.

A remarkable showing has been made by the Mishawaka Woollen Mfg. Co.'s employees by their ready and liberal responses to the many duties that have devolved upon them as a result of the war. If figures were available from factories in the Woollen Co.'s class throughout the country it is practically certain that the local factory would stand well up, if not at the lead in respect to activity in every call that has been made upon them—enlistments, Liberty bond sales and Red Cross memberships.

To date 53 of the employees of the factory have enlisted and been accepted in the army and navy. Two months ago the Woollen Co. made each of its employees a present of a \$300 life insurance policy, and it is announced by Asst. Gen. Mgr. E. J. W. Fink that the policies of those who have enlisted from their factory will be continued in force for the men during the war.

In the Liberty bond campaign the factory exceeded in sales the \$100,000 lot that had been purchased by the company for distribution among the employees. The total sales went over \$102,000. A total of 1,050 employees of the factory subscribed to the bonds.

The response made in membership subscriptions to the Red Cross leads in percentage, which amounts to 93 3-10, representing 2,677 employees. Of the 22 departments of the factory, half the number closed the campaign with 100 per cent registrations. The 11 departments in the 100 per cent class and the number in each department are as follows: Heavy articles, 262; heavy sewing (utility and sandals), 152; packing and shipping, 150; heavy pockets, 144; repair shop, 70; power and lighting, 62; wool-washing, felting, treering and dyeing, 61; wool spinning, 54; lining-cutting, 47; wool-spinning, 36; office, 250.

The campaign of solicitation through the factory was made by 22 girls employees of the factory dressed in Red Cross nurse costumes. They devoted four days to the work—the previous two Fridays and Saturdays. Departments that had 100 per cent enrollments were each presented with a 3x5 silk Red Cross flag, which were made by the girls in the factory. One of those flags was also presented to the Mishawaka Woman's club, sponsors for the local Red Cross chapter.

Asst. Gen. Mgr. Fink stated that if all the factories in the city did as well in the Red Cross membership contributions, that the total number of members in the city in the factory would alone amount to 5,000 and would put Mishawaka first in the country according to population.
